

Fast *Facts*

The College was among the first colleges in the United States to focus on sustainability. With degrees in Environmental Studies, Sterling College uses education as a force to address critical ecological problems caused by unlimited growth and consumption that is destroying the planet as we have known it. Our mission is to advance ecological thinking and action through affordable experiential learning that prepares people to be knowledgeable, skilled, and responsible leaders in the communities in which they live.

The College's motto is "Ecological Thinking & Action."

Sterling College has been recognized among more than 550 colleges and universities as a top performer in the 2021 Sustainable Campus Index, achieving the top spot for sustainable food and dining, tying for second for sustainability curriculum, and ranking fourth overall among baccalaureate institutions. Sterling is the only higher education institution in Vermont to rank in the top 10.

- The College's motto is "Ecological Thinking & Action."
- Sterling College was one of the first liberal arts colleges in the world to focus exclusively on environmental stewardship education.
- 80% of electricity on campus is produced through solar power.
- For four consecutive years, Sterling has received a STARS (Sustainability Tracking, Assessment & Rating System) Gold rating from the Association for the Advancement of Sustainability in Higher Education (AASHE).
- #1 healthiest dining hall in the country, ranked 60% higher than the national average.
- Student-to-Faculty ratio is 6:1.
- 21% of the student body are first generation college students.
- All students living on campus work to help pay for books, housing and meals.
- 79% of students come from the Northeast.
- 61% of students are Pell Grant recipients.
- Sterling students graduate with 50% less loan debt than the national average.
- Tuition, room and board in 2018-19 is 20% less than other private New England colleges.

Sterling College was one of the first liberal arts colleges in the world to focus exclusively on environmental stewardship education.

Work Colleges are an exceptional group of four-year, degree granting, liberal arts institutions that engage students in the purposeful integration of work, learning, and service. The work college model is student-centered and designed to enhance and enrich the educational experience while reducing the cost of education. Unique to work colleges is the requirement that resident students participate in a work-learning-service program for all four years of enrollment. Working in a supportive campus environment has been shown to have a positive effect on college persistence and degree completion.
